About Hyflux

Hyflux is one of the world's leading fully-integrated water solutions companies, with operations and projects in Southeast Asia, China, India, the Middle East and North Africa. Hyflux is committed to providing cost-effective and sustainable solutions in seawater desalination, water recycling, wastewater treatment, including membrane bioreactor (MBR) and potable water treatment. Hyflux's track record includes Singapore's first water recycling plant and first seawater reverse osmosis (SWRO) desalination plant and China's largest SWRO desalination plant in Tianjin City. The company is building the world's largest SWRO desalination plant in Magtaa, Algeria. Hyflux has also been awarded Singapore's second and largest SWRO desalination plant which will be developed on a design, build, own and operate model.
