

NEWS RELEASE

APPOINTMENT OF SENIOR ADVISORS TO HYFLUX'S INTERNATIONAL ADVISORY PANEL

Singapore, 18 March 2013 – Hyflux Ltd today announced that it has appointed Mrs Yu-Foo Yee Shoon and Ms Liu Jingsheng as senior advisors of Hyflux's International Advisory Panel.

Mrs Yu-Foo and Ms Liu will provide Hyflux's management and Board of Directors with strategic advice and insight on public policy, government relations, financial markets, economic and emerging trends. The International Advisory Panel has been set up to advise on Hyflux's continued expansion in international markets.

Ms Olivia Lum, Executive Chairman and Group CEO of Hyflux, said: "We're honoured to have Mrs Yu-Foo and Ms Liu join Hyflux as senior advisors of our International Advisory Panel. They bring a wealth of experience and invaluable perspective on Asia that is important for the next phase of our growth. Hyflux will benefit greatly from their knowledge and experience."

Mrs Yu-Foo served as Singapore's Minister of State for the Ministry of Community Development, Youth & Sports from 2004 until she retired from politics in 2011. Before that, she held several office-holding appointments. She has a Master of Business from Nanyang Technological University, Singapore, and an Honourary Doctorate of Education from Wheelock College of Boston, USA.

Ms Liu joined China International Capital Corporation Limited (CICC) in 1996 and currently serves as Senior Advisor. Previously, she was the Managing Director of CICC, Chairman and CEO of CICC (Singapore) Pte Ltd. Before joining CICC, Ms Liu had been working in the National Development and Reform Commission, P.R.China for 11 years. She holds a Master's degree in Developing Economics from Khon Kaen University Thailand, and a Bachelor's degree in Planning Economics from Renmin University, China.

About Hyflux

Hyflux is one of the world's leading fully-integrated water solutions companies, with operations and projects in Southeast Asia, China, India, the Middle East and North Africa. Hyflux is committed to providing cost-effective and sustainable solutions in seawater desalination, water recycling, wastewater treatment, including membrane bioreactor (MBR) and potable water treatment. Hyflux's track record includes Singapore's first water recycling plant and first seawater reverse osmosis (SWRO) desalination plant and China's largest SWRO desalination plant in Tianjin City. The company is building the world's largest SWRO desalination plant in Magtaa, Algeria as well as Singapore's second SWRO desalination on a design, build, own and operate model.
