

NEWS RELEASE

HYFLUX ANNOUNCES APPOINTMENT CHANGES

Singapore, 17 September 2013 – Hyflux Ltd (or the Group) has appointed Mr Zhao Qing, Senior Managing Director and CEO China from 1 October 2013. He will head the China market for Hyflux and have overall responsibilities over business development activities as well as the Group's operations in China. He has also been appointed to the management committee of Hyflux.

Before joining Hyflux, Mr Zhao, 45, was with SINOPEC Group, China's biggest oil and petrochemical company for about 20 years. A trained environmental engineer, he went on to head the environmental engineering division of SINOPEC Engineering Incorporation. His last appointment was Executive Vice President, International Business Development and Managing Director of the US subsidiary of SINOPEC Engineering Group Co. Limited, where his responsibilities included managing the group's overseas business development and expanding its international presence, including developing both north and south American markets.

Mr Zhao has a Master in Environmental Engineering from Tsinghua University in China and a Master in Business Administration from Cass Business School, United Kingdom.

Mr Zhao takes over from Mr Oon Jin Teik, Executive Vice President and current CEO China upon the completion of the latter's three-year assignment in China. Mr Oon rejoins Hyflux's Singapore headquarters to undertake new responsibilities in corporate planning and communications and government relations, which is an area of growing significance given the Group's expanding international presence. He will also oversee business development of South East Asian markets.

Both Mr Zhao and Mr Oon report directly to Ms Olivia Lum, Executive Chairman and Group CEO of Hyflux.

-END-

About Hyflux

Hyflux is one of the world's leading fully-integrated water solutions companies, with operations and projects in Southeast Asia, China, India, the Middle East and North Africa. Hyflux is committed to providing cost-effective and sustainable solutions in seawater desalination, water recycling, wastewater treatment, including membrane bioreactor (MBR) and potable water treatment. Hyflux's track record includes Singapore's first water recycling plant and two seawater reverse osmosis (SWRO) desalination plants, and some of the world's largest SWRO desalination plants in China and Algeria.
