

## **JOINT NEWS RELEASE**

### **HYFLUX AND GRUNDFOS ENTER STRATEGIC PARTNERSHIP FOR THE DEVELOPMENT OF STANDARDIZED UF MEMBRANE-BASED SUB-SYSTEMS FOR INDUSTRIAL USE**

*Singapore, 11 April 2013* – Hyflux Membrane Manufacturing (S) Pte Ltd (HMM), the membrane manufacturing arm of integrated water solutions company Hyflux Ltd and Grundfos Holding A/S (Grundfos), one of the world's leading pump manufacturers, are putting their knowledge and expertise together to develop a standardized ultrafiltration (UF) membrane-based sub-system for the treatment of surface and ground water.

The collaboration will enable both companies to expand their current solution offerings to include the supply of standardized UF sub-systems to system builders and OEMs.

Both companies will harness their leading positions in their respective fields such as in the design and supply of advanced turnkey solutions for water treatment, pumping, sensing and controlling, in the development of the UF sub-system. The system will be able to handle different types of feed water.

HMM and Grundfos have decided to formalize their collaboration after a joint period of conceptualization work and initial test phases.

-END-

#### **About Grundfos**

Grundfos Holding (A/S) is a global leader in advanced pump solutions and a trendsetter in water technology. Being a leader in energy efficient pump solutions, its expertise includes pumps, electronic motors, sensors and electronics and advanced controlling intelligence. Grundfos is incorporated in Denmark.

## About Hyflux

Hyflux is one of the world's leading fully-integrated water solutions companies, with operations and projects in Southeast Asia, China, India, the Middle East and North Africa. Hyflux is committed to providing cost-effective and sustainable solutions in seawater desalination, water recycling, wastewater treatment, including membrane bioreactor (MBR) and potable water treatment. Hyflux's track record includes Singapore's first water recycling plant and first seawater reverse osmosis (SWRO) desalination plant and China's largest SWRO desalination plant in Tianjin City. The company is building the world's largest SWRO desalination plant in Magtaa, Algeria as well as Singapore's second SWRO desalination on a design, build, own and operate model.
